

Integration and sports

- special project -

Sports clubs offer a wide range of integration potentials, chances to meet people and options to communicate with people from different cultures. In consideration of the demographic change and especially the large amount of refugees this topic is very important for the SSV.

With several campaigns and small projects e.g. with the sports teams, the council of Sundern, the civilnetwork refugees aid, the communal centre of integration HSK and some more we want to try to enable the approach to sports for all citizens of Sundern.

All the interested people, teams and partners are invited to take part in the project integration through sports. For further information and contacts please visit the homepage of the SSV.

Welcome to Sundern
